Associated Students of Boise Junior College

Although this file was scanned from the highest-quality microfilm held by Boise State University, it reveals the limitations of the source microfilm. It is possible to perform a text search of much of this material; however, there are sections where the source microfilm was too faint or unreadable to allow for text scanning. For assistance with this collection of student newspapers, please contact Special Collections and Archives at archives@boisestate.edu.

FRIDAY, SEPTEMBER 22, 1950

President Chaffee Welcomes Students

ALL AUSTAD TO VACANCY

Howard Adkins, former BJC student who was elected vice-president last year, has been called to his naval reserve unit.

The constitution provides that an officer be replaced by election in the Executive Board.

In the first meeting, Sept. 8, the board elected Bill Austad by majority vote.

He will fulfill the duties of vice-president this year.

KNIGHTS RELEASE PLEDGE DATES

The Intercollegiate Knights held their first pledge meeting at Duke Thometz's. This was the first of three meetings in which the Knights will accept new pledges. The following meetings will be held on Sept. 19, and 26 at 12:30 in the basement of the auditorium. Every man interested is invited to attend one of these meetings.

The I.K.'s is a service organization. Last year they built a picnic place, turned out a student directory, built the Homecoming fire, sponsored the I.K.'s Form Dance and operated the concessions at many of the B.J.C. games. Throughout the year, the I.K.'s had picnics and parties.

This year the I.K.'s intend to improve their reputation as a going organization. There should be plenty of work and fun for all. Anyone interested should attend one of these pledge meetings.

Alumni Note

Here is a reminding note to all BJC graduates. For you who are interested in receiving copies of the Roundup, you may send 50c coin to the alumni committee at Boise Junior College. This should be taken care of as soon as possible as copies of the paper are now being edited.

BJC Alumni Committee.

FRENCH CLUB TO HOLD MEETING

Dr. deNeufville announced that the French club will hold its first meeting to organize and elect officers.

This year the club will meet monthly. There are a number of films concerning various aspects of French life available from New York. The club will show these films as part of the entertainment for each meeting. Games and singing as well as discussion of French customs are also on schedule.

Last year the language clubs presented an assembly which won \$15 in the annual contest of club assemblies. Dr. deNeufville expressed hope that they would do as well or better this year.

Dr. deNeufville is planning an extensive tour of Europe next summer. Through an organization in New York he plans to visit France, England, Germany, Switzerland, Poland and Italy. He hopes that interested students will take an active part in the French club.

SPANISH CLUB BEGINS SESSIONS

Mrs. Camille Cramer announced that Spanish Club will begin the regular sessions at the Spanish table on the mezzanine of the Union.

Arantza Cazalis, sophomore originally from Spain, will be assisting Mrs. Cramer with her regular classes.

Spanish Club meets monthly at Mrs. Cramer's. Spanish is spoken exclusively. This is the reason for limiting the membership to second year students or second semester accelerated students. Dancing, singing and conversation is all in Spanish.

Food is served at the meetings in Spanish style.

William Rane, former student who married a girl he met in Spanish club, is enrolled again and will aid with the meetings and classes.

Dean of Women Discloses Aid For Girls

Mrs. Ada Burke, Dean of Women, announces that there are still many homes which desire a college girl to room and board. Any girl who has not yet completed her arrangements for work or living accommodations should contact her in room 212.

MAUNA LOA IS HUGE CRATER

The pit of Mauna Loa, the Hawaiian volcano, is two miles deep and twice that long. The crest of Mauna Loa, is more than 13,000 feet high.

ENCYCLOPEDIA BRITANNICA SAYS

Sea water freezes at a about two degrees centigrade, with resultant ice practically free from salt, according to the Encyclopedia Britannica.

President Chaffee Extends Welcome To Students

The world today is in a state of turmoil and confusion and the future is uncertain. There are many questions in the minds of you who have come to BJC that we can not answer but it is most gratifying in the face of all these conditions to be sure of one thing: An education is the one constant factor that insures security for the individual as well as the nation.

To you students who are new to our campus, I extend a hearty welcome and encourage you to take advantage of all the opportunities of our school. To those of you who have been with us before, I welcome you back. This year I would say that it is especially necessary for students to avail themselves of all the advantages on our campus and to apply themselves diligently to their work and, at the same time enjoy the extra-curricular activities of which Boise Junior College has a well-rounded program.

May your year be most successful and gratifying.

EUGENE B. CHAFFEE.

Mac Appeals For Student Aid

Mac Wright, student body president, is in charge of the students who are helping run the BJC stadium during the football games here. The students are responsible for selling programs, ushering, parking cars, selling tickets, and running the concessions. The sub-chairmen are Ike Mabbott, concession salesmen; Mike Thometz, program salesmen; Bill Austad, ushers; Darwin Thomas, parkers; Bitsy White, ticket sellers.

Mac is appealing for all students who have not been given a job at the games to sign for a position. Every student is needed badly.

DEAN ANNOUNCES WORK AVAILABLE

The office of the Dean of Men is prepared to help out-of-town men students find room and board in our Boise homes. For those men students who desire part time jobs this office will render every assistance. If you desire room and board or a part-time job please call at room 211, administration building. The bulletin board in the lower hall nearest the library carries a list of the rooms and the part-time jobs that are now available to BJC men students.

HERBERT BAYARD COINED "COLD WAR"

Who coined the phrase "cold war"? This phrase was first used by Herbert Bayard Swope in 1946. Bernard Baruch picked it up and brought it to public attention in a 1947 speech.

BJC Band Begins Practice

BJC 45-piece band began practicing Sept. 6.

Many of the regulars from last year are now in the service but there are still many talented students.

The band will make its debut Sept. 22 when the Broncos play Modesto. New blue and orange uniforms will give them snap and appeal.

Mr. Best, director of the band, urges all students who are interested in being in the band to contact him in the auditorium. There are many good positions open in the band. It will meet every evening at 5:00 p.m.

Last year the band was given a trip to the Potato Bowl game at Bakerfield. It is expected that they will be sent to Weber on the 29th.

BJC community orchestra will begin rehearsals on Sept. 20 at 8:00 p.m. The orchestra is composed of talented townspeople and outstanding students. There are many positions open for students of ability. Interested students are asked to contact Mr. Best.

PI SIGMA'S REVEAL TRUE MEANING

Pi Sigma Sigma reveals the true meaning of their Greek letters. Pep, spirit and service, the motto of the recently formed club, is the derivation of the Greek name.

The organization is not a fraternity. It is a pep and service organization created to stimulate more interest in school and athletic affairs among our men students.

Among the Pi Sigma Sigma projects last year was the building of a scoreboard for the football field. They presented an assembly, handled concessions at the games, participated in the school's election campaign for dormitories and participated in inter-class sports with other organizations on the campus.

Any man student wishing to join this organization may do so by contacting any of the following officers: Ike Mabbott, president, Dave Wailes, vice-president, Don Whittaker, secretary, and Lyle Coltrin, treasurer.

EVERY STUDENT SUPPORTS
BRONCOS
BEAT MODESTO SEPT. 22

Roses are red,
Violets are blue,
Navy wants Smith,
B.J.C. does, too.

Make the Most of Your School

To the new students . . . You've made your decision with an eye on the football team, the new dorms, the ideal location near your homes. If you're here also because you realize that Boise Junior College is the college of the Northwest, then—you can truly be a part of a school that is "on the map" both scholastically and in the sports world.

To the old students . . . We know why we're here. It's because the sophomores have the understanding and the leadership which our school will need so badly when the work and problems envelop us. We're here to help make our new facilities efficient. We're here to set the example for those to follow.

To everyone . . . Make this year the best in your life, by cultivating a sincere interest in your classes, your teachers, your team, by cooperating because you want the school to need you, by having a darn' good time because just studying and working can leave one frail and lopsided.

Prexy Welcomes Students

1950-51 . . . The school year that looked to be the biggest and best yet when we second year students left for our summer occupations in the spring is here. Graduating high school seniors looked forward to sharing the added activities occasioned by the new B.J.C. stadium and the great year that appeared ahead of us.

Since then there have been developments on the world scene affecting our Boise Junior College. But I, as president of the student body, am expressing the confidence of the Executive Board that this will be one of the greatest years in B.J.C. history regardless of added problems.

I am saying this with the expectation that the returning sophomore and new freshmen students will be as enthusiastic as we of the Executive Board are. It will be a big job but working unitedly we will achieve a successful end to our endeavors.

. . . and so with this in mind we welcome you to a year of continued accomplishment.

Just a Suggestion!

It's a big jump from High School to College. Any Sophomore can give you a lengthy description of the traditions, classes, etc., which are different.

It's not like high school in the respect that each class is not held everyday and the Union is there to take up your time.

This building we call the Union is a wonderful place, but sometimes it gets in one's blood so much that classes are missed because of a card game and grades are lowered from ashes to dust.

No one can tell a student to attend classes regularly, but he must remember that it's his money he's wasting if he cuts them. This is just a suggestion that maybe the Union can be used for free time and the Ad Building for class time. What about it?

I R Club Promises a Busy Year

The first fall activity of the International Relations club will be a picnic at the park. The club begins the season with 26 good sophomore members. The officers of the club are: president, Jim Buchholz; vice-president, Ruth Lyman; secretary-treasurer, Rose Brunney; World Student Service Fund committee, Barbara Black and Ruth Lyman; program committee chairman, Mary Lynn Hepner; social committee chairman, Marjorie Kinsey; membership committee chairman, Gary Richardson; concession committee chairman, Bernice Croft; and publicity committee chairman, Joanne Cutler.

The first big service project will be the World Student Service fund campaign which will be conducted late in October. At that time funds will be collected to help students in foreign countries who are seeking an education. The students contributed \$130.00 last year to this fund. Those in charge of the campaign this year are Barbara Black and Ruth Lyman.

During the year panel discussions will be held on topics related to international affairs; speakers will be heard on topics of interest to the club; an annual spring dinner for the members will be arranged; business meetings will be held on Wednesdays at 12:30 noon in room 210. The purpose of the club is to give students information on national and international topics. As in previous years the club hopes to have an active campus program.

YOU AND YOUR AUTO

The death rate per accident on highways at night is estimated to be 51 per cent greater than that occurring in daylight, although there is only one-fifth the traffic.

The clutch of your automobile should always have an inch of free play. Without this degree of latitude, clutch springs are bound to show the effect.

Travellettes Meet Out of Town Girls

The Travellettes held a potluck supper and meeting Monday, September 11, in the Home Ec. room to welcome all new members and acquaint them with Boise Junior College.

Freshmen out-of-town girls were greeted registration day by a small committee of sophomore Travellettes. Each girl was identified by a blue and orange "T" bearing their name and home town.

A letter was sent to each girl prior to registration day stating the purpose of the Travellettes club and welcoming them to BJC.

The club was organized three years ago at the suggestion of Mrs. Burke, dean of women. A constitution provided an election of officers each spring with the exception of the vice-president and secretary-treasurer who are elected from the freshman class the following fall.

Active officers are Betty Judy, president, and Louanne Loomis, social chairman. Mrs. Jeanne Stearns is advisor.

Two highlights of last year were the Homecoming float and assembly.

A larger membership is expected this year with more activities and projects.

Associated Women To Hold Tea

The first meeting of the Associated Women will be Monday at 10:45. A. W. officers will be introduced and information about the organization will be given.

A tea for all new girls will be held on Thursday, Sept. 21, from 2:30-4:30. The purpose of this gathering is to acquaint the new girls with the faculty and sophomore girls.

Service Organization Opens Season

Each year 27 freshman women are chosen on the basis of scholarship, dependability, initiative and participation in activities to form the Valkyries for the following year. This is a sophomore women's service organization dedicated to fostering the spirit of cooperation and friendliness.

Last year the Valkyries conducted a second-hand book store, purchased and decorated the Christmas tree in the main hall of the Administration building, sponsored a luncheon for Valkyrie alumni, sponsored a dinner-dance and offered a scholarship to a deserving girl.

Other activities included assisting in the March of Dimes campaign, the Blood Bank, and Cancer drives, entering a winning float in the Homecoming Parade, and sponsoring the annual "Beard Cutting Contest."

One of the most important projects of the Valkyries was the donation of the trophy case in the main hall and the dedication of the plaque in the trophy case.

A new responsibility has been given the Valkyries this year. They will have charge of all food at the games.

The activities will continue much the same as last year's, including the management of the book store.

Broadens Its Requirements for on-Farm Training

By Mac Wright

broadening of requirements for veterans' farms must meet for national on-the-farm training the G.I. Bill has been amended by the Veterans Administration.

Under a new ruling, eligibility requirements for farm training have been expanded to include the raising, breeding and managing of stock, as well as poultry and specialized farming common to the area.

In the past few months, the number of veterans admitted to the farm training program have been those who have included tilling of the soil as a basic activity. These veterans continue to be eligible for training.

A veteran also may enroll in the farm training program if his farm includes a combination of both types of activities.

In addition, the farm or agricultural establishment must be of a type and character which, together with the group instruction part of the course, will (1) occupy the veteran's full time, (2) allow for instruction in all aspects of farm management of the type for which he is being trained, and (3) assure him a satisfactory income after completion of the course.

National on-the-farm training will not be approved for veterans engaged primarily in the processing, distribution or sale of agricultural products, examples of which are dairy processing plants, grain elevators, packing plants, hatcheries, stock raising, florist shops and the like. Only men who qualify to train veterans under the on-the-job provision of the G.I. Bill, the VA said.

QUESTION OF THE WEEK

Is there a limit within which a veteran must file a request for a review of the character of his discharge in the Army?

Your application must be filed within fifteen years after date of discharge or fifteen years after September 22, 1944, whichever is the later.

Harold Wennstrom Plans Plays for the Year

Mr. Harold Wennstrom, drama teacher, is planning two major productions and a number of smaller plays this year. One will be a classical production, the other will be a modern play. Under consideration are Shakespeare's "The Merchant of Venice," "The Merry Wives of Windsor," "The Tempest," and "Twelfth Night," Ibsen's "A Doll House," and "An Enemy of the People," Tchekov's "Cherry Orchard." Modern plays being considered are: Elmer Rice's "The Addams Family," Lynn Riggs' "Green Grow the Lilacs" and Caryl Chesson's "R. U. R."

Members of the play production group will cooperate again with the drama club in a contest at Boise High School by directing the high school groups under the supervision of Mr. Wennstrom.

All new students interested in dramatic activities will be invited to a special "get-acquainted party" during the second week of school.

There will be openings on the production staff and the first all school play for students interested in costume, make-up or scenery work.

People interested in either dramatics or radio work please report to Mr. Wennstrom in T-1 any afternoon this week.

Dr. Baker Plans Tour; Holland, France, Belgium and England

As you know there is now in process the integration of western Europe. In the face of the threat of communism a very significant development is taking place, the union of western European countries. To be on the ground and to get first hand information about these dramatic changes will be your privilege.

The itinerary begins in Scotland, proceeds to England, then Holland, Belgium and France.

The group will visit famous museums, beautiful cathedrals and striking monuments. There will be the English drama and the French ballet. There will be Canterbury, Oxford, the Shakespearean country, the Dutch countryside, the trip to Bruges, the Louvre, Notre Dame and the Versailles Palace. And too, there will be the chance to meet and hear leaders in politics, in education, in the arts and in economics. The people, the food, the markets, the shopping, the dress—these details will add the extra touch.

Western European Integration
Purpose: To study the political, social and cultural problems in western Europe.

Time: The tour will start from New York in early July and will end back in New York toward the end of August.

Program: The group will visit famous museums, beautiful cathedrals, and striking monuments. There will be the English drama and the French ballet. There will be Canterbury, Oxford, the Shakespearean country, the Dutch countryside, the trip to Bruges, the Louvre, Notre Dame and the Versailles Palace. And too, there will be the chance to meet and hear leaders in politics, in education, in the arts and in economics. The people, the food, the markets, the shopping, the dress—these details will add the extra touch.

Representation: Anyone interested in a relaxing trip with an educational purpose back of it.

Advantages: World Study tours has educational leaders in all the centers in Europe. These representatives set up a rich and interesting program in advance for the summer groups. These leaders act as guides when the tour group arrives. This makes it possible for travelers to secure maximum benefits for the time spent. It also reduces substantially the cost of travel.

The Boat: The ship which will be a student ship will provide an orientation program, consisting of language classes, discussions on foreign problems and moving pictures dealing with world issues. It will also provide an entertainment program of singing, dancing and dramatics. Because of the orientation program the tourists will be better prepared to understand the things they will see and hear in Europe.

Six Points Credit for the Trip:
Application is being made to Columbia University and Boise Junior College, requesting that six points credit be given for the trip under the title "field sociology." Consult your college to see if it will accept these points as transfer credits.

Those who receive credit will keep a notebook of experiences on the tour and write a paper of impressions upon their return. "Alertness" or "in service" credit may be earned and transferred to almost any university or college.

Cost: \$873.00 from New York to New York. You may reserve a place with the party by making a deposit of \$100.

Leader: Dr. Paul E. Baker, dean of men and chairman of the sociology department, Boise Junior College, Boise, Idaho. Forward your correspondence to him regarding the tour. Dr. Baker has had a number of years of experience in conducting such tours.

Changes in Schedule: This is a tentative schedule; no doubt some changes will be necessary. However, the general idea of the tour will remain the same.

Tentative Itinerary

1st day—Sail from New York on a student-type ship, such as the Samaria, Volendam or Georgic.

9th day—Land at Liverpool.

10th day—To Glasgow.

11th day—The Trossachs.

12th and 13th days—Edinburgh.

13th and 14th days—Overnight by rail to London.

15th thru 20th days—London, with Oxford and Stratford.

20th and 21st days—Overnight by rail and steamer to Amsterdam.

22nd thru 25th days—Holland, with Amsterdam and The Hague.

26th day—To Brussels by rail.

27th and 28th days—Brussels, with Bruges.

29th day—To Paris by rail.

30th thru 35th days—Paris, with Versailles.

26th day—Sail from a French port on a student-type ship.

44th day—New York.

Fee—\$873.00.

The price of \$873.00 includes trans-Atlantic fares, lectures, sight-seeing, entertainment, full board and lodging, transportation second class on the continent, third class in England, and first class on European steamers. It excludes the items which are usually extra: passport, visas, trips on the trans-Atlantic steamers, steamer chairs and rugs, portage of extra baggage, laundry, tips for personal services, etc.

Stadium Lights Worth \$10,500.00

The lighting of the stadium was a large and well planned engineering job. In order to have the light thrown evenly over the field, Mr. Haroldson, the engineer, decided to place the floodlight poles on the outside of the grandstand. To do this, extra high poles had to be used. Since no trees of sufficient height grow in Idaho, the Idaho Power Company sent to Kent, Washington for six western red cedar poles. Two of these are 115 feet high and four are 90 feet high. Mr. Haroldson placed 18 lights (150-watt enclosed flood lights) on each of the six poles for a total of 108 flood lights) on each of the six poles for a total of 108 flood lights. Push button control operates the lights through two oil switches. When in operation the flood lights maintain a bath of light on the field of fifteen foot candles of light per square foot. The flood lights consume 210 kilowatt hours of electricity per hour. The lights give off the heat equivalent to that used to heat 10 five-room houses during the winter. The over-all heat gives the BJC stadium a field as well lighted as any in the west. The flood lights were installed at a cost of \$10,500.

Hattie Gesner Manages Union

Hattie Gesner from Wichita, Kansas has been feeding our football team three meals a day since September 4. She is the manager of food service at the union.

Miss Gesner graduated from the U. of Kansas and until recently managed the complete food service for the U. of Wichita.

She finds that all football players, whether from the mid-west or the far west, are the same. They're friendly, good natured and always hungry.

The Union is the place to go for food at noon and fun on Fridays. The student activity ticket provides 7.7% of its total to support the Union. Breakfast is served in the morning and lunch at noon plus cokes, coffee, etc., from 8:00 til 5:00. The school supply store is located on the balcony of the Union. Special supplies for every class may be obtained there.

Union Nite is held every Friday when another school activity does not conflict.

New Teachers Help BJC

Carroll Cooper, voice teacher, obtained his BA at the College of Idaho, MA at Teachers College, Columbia University, New York, and did graduate work at Juilliard School of Music. He has taught two years at Westwood High School, New Jersey.

Lester McCann, instructor of zoo and forestry, received his BA and MA from the U. of Minnesota. He has taught at Eastern Washington College of Education. He did considerable research on game birds and big game and worked a year with the big-horn sheep.

Claude Waln, instructor of sheet metal working, worked as a journeyman sheet metal worker in Boise shops. In previous years he has been teaching apprentice night school at Boise Junior College. He has also worked as apprentice in Bremerton, Washington.

Dr. James Moore, professor of history and political science, obtained his degree at the U. of California at Berkeley. He taught history at the U. of C. and Xavier University in Cincinnati.

Bernice Bedford, instructor of business, received her BA at Earlham in Indiana. She received her MA at the U. of Iowa. She has taught in Ohio. Recently she has been working in college offices in Middlebury, Vermont.

Warren Adelman, instructor of engineering, received his BS in mechanical engineering at the U. of Idaho. He has been teaching part-time here in Boise Junior College. He has been teaching at Boise High School.

M. A. Lund, machine shop instructor, has had extensive experience. He has worked here in Boise for a number of years.

Broncos Meet Modesto September 22

Bronco Squad Shapes Up

Boise Junior College 1950 football squad is just beginning to round into shape with most of the team members reaching their peak of condition.

The Broncos are favored this year with several members of last year's undefeated Idaho Frosh eleven, and the cream of the Idaho high school prospects.

Dick Bader and Bill Oliver, fullbacks, have been running hard and showing a lot of power in scrimmages. George Donaldson, Jim Bergen and Larry Bennett are stand-outs at the quarterback spot. Halfbacks Earl "Squirrley" Williams, Ray Getardo, and Larry Jackson were also consistent ground gainers in scrimmage sessions. Jim Petruzzi and Babe Wilder who has only been in uniform three days, have shown a lot of the speed that is needed in the wing-back department.

The Broncos boast a heavy, game-wise line this year with veterans Harry Howerton, guard, Roy Mossman, tackle, Lefty Billman, guard, Ray Lewis, and Sid Connor tackles, and Roy Frasier, center, returning from last year's undefeated club. Bob Stevens, U. of I. frosh tackle, looks to be a big power in the line as is Morrie Durocke, 195 pound tackle.

Although there isn't a definite first or second string yet, last Saturday's inter-squad scrimmage will determine a lot of positions.

Student Writes Feature Article

The "H. M. S. Mayqueen" left Seattle about noon on the their day of September. The "Mayqueen" was a fairly sturdy old transport, painted a dull grey, as were most of the ships during this second world war. Although she wasn't the finest of the Canadian Navy, the "Mayqueen" managed to hold her job of carrying supplies to and from Alaska.

On this day of departure, the sun was out in all its glory, and it promised to be a fairly uneventful trip. Within two days, we were in the Queen Charlotte Sound, and all was well and then our troubles began.

On September sixth, we received word by wireless that subs were in that area. This meant we would be forced to detour from the Gulf of Alaska by following the narrow channels between the coast and small islands. This we did, knowing it would add at least two days to our trip.

As soon as we reached these straits, the weather began to soup up, and by that time we had to travel by radar and prayers.

On September 8th, the day we should have docked at Seward, we hit some shallows and tore a tunnel size gash in our port side.

The captain, realizing nothing could be done, gave the call to abandon ship. In opposition to the notices in all cabins and to the pleas of the crew, panic seized the passengers, most of whom were

wives heading north to join their husbands.

Some of their fears were founded because the first two lifeboats they tried to release were so rusted that it was futile to get them to the water. The pullies on a third were not rusted, but the rope broke, dropping the boat to the water in a million pieces. In the meantime, the ship was listing in a very precarious position. At last, the two remaining lifeboats were lowered to the water. These were certainly not adequate for the already overcrowded passengers.

It seemed almost inevitable that a disaster would ensue. The hand of the Lord, however, was on the shoulders of these people. The radio operator of the "Mayqueen" had contacted a Canadian cutter not a mile away. It was only a matter of minutes until it arrived and the rescue was complete.

The sinking of the "Mayqueen" was only one of several instances during the past war when people did not show extreme courage. Perhaps the faulty rescue equipment was to blame. This is only one reporter's view. Maybe to another, this would have been an example of great courage and bravery.

Gary E. Jones,

W. A. A. Promises Big Fall Activity

Big things are in store for the athletic minded gals on the campus. The Women's Athletic Association is sponsoring a field hockey team that will take part in the Northwest Hockey Conference to be held in Vancouver, B. C., Nov. 18-19. The try-outs for this team will be held this week. Notices will be on the bulletins concerning time and place. In addition to the dream trip, the team will journey to the College of Idaho to play the girls there.

In addition to this activity, every and bowling will be on the schedule for all girls who are interested.

BRITISH SAND BARS ARE ADAM'S BRIDGE

The British crown colony off the southern tip of India Ceylon, closely connected to the mainland by a chain of sand bars and known as Adam's Bridge.

IN U.S. WE USE SPANISH

Colorado derives its name from the ruddy waters of the Colorado river when it is roily at flood stage. This is borrowed from the Spanish language.

In Nashville, Tennessee, there is always a friendly gathering of Vanderbilt University students at the Vanderbilt Center on the campus. And as in universities everywhere, ice-cold Coca-Cola helps make these get-togethers something to remember. As a refreshing pause from the study grind, or on a Saturday night date—Coke belongs.

5¢ Ask for it either way... both trade-marks mean the same thing.
